

THE
TOSHIBA
ACCREDITED
INSTALLER

**PERFORMANCE
GUARANTEES**

In air conditioning installations, there are a considerable number of installation companies with varying quality standards.

It is often difficult to assess quality when choosing an installer. One way is by referral of a third party. The Toshiba recommendation should be all the assurance you need for peace of mind.

Install Toshiba Air Conditioning with a Toshiba Accredited Installer and you can be assured of trouble-free installation with minimum disruption.

Toshiba Accredited Installers have successfully completed technical training courses run in conjunction with Toshiba.

All Toshiba Accredited Installers have direct access to the Toshiba Technical Department for support on your particular installation specification.

Every Toshiba unit is covered by a 3-year Parts and Labour Allowance, subject to regular maintenance.
